PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building production-ready web applications across diverse domains — from multi-platform e-commerce dashboards to AI-powered creator tools. Proficient in modern JavaScript ecosystems (React, Next.js, Node.js) with strong backend integration skills. Proven ability to deliver scalable, high-performance UIs with clean code architecture and real-time functionality. Seeking a challenging role to contribute impactful engineering solutions at scale.

EXPERIENCE

Full Stack Developer Intern · [WAE Academy](#)

Jun 2025 – Feb 2026

- Delivered 8+ production-grade web projects including dashboards, landing pages, and full-stack platforms.
- Built and shipped features spanning React/Next.js frontends, Node.js/Express backends, and Supabase/Firebase databases.
- Collaborated in a cross-functional team environment, contributing to UI/UX design, API integration, and performance optimization.
- Maintained code quality across repositories using Git workflows and modern tooling (VS Code, Postman, Windsurf).

PROJECTS

Multi-Platform E-Commerce Dashboard | [Next.js](#) · [TypeScript](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Shiprocket API](#) · [WooCommerce API](#)

- Engineered a unified e-commerce dashboard to consolidate and manage orders from multiple platforms (mtarts.in, thekalapi.com) in a single interface.
- Integrated Shiprocket API to automate shipment creation, displaying live tracking data (AWB, delivery status, ETA, courier details).
- Developed scalable RESTful APIs for order synchronization, third-party integrations, and data transformation across platforms.
- Implemented robust error handling for real-world edge cases including courier assignment failures and shipment creation conflicts.

College Platform | [React](#) · [Vite](#) · [Supabase](#) · [Redux Toolkit](#) · [Framer Motion](#) · [Tailwind CSS](#) · [Radix UI](#)

- Architected a multi-role academic platform with custom design system featuring a refined, editorial UI/UX inspired by a 'literary salon' aesthetic.
- Built a dynamic dashboard with real-time event integration via APIs and a live newsletter system powered by Supabase.
- Delivered full responsiveness across all viewports with consistent navigation and interactive component animations.

HR Community – Landing Page | [React 19](#) · [TypeScript](#) · [Vite](#) · [Tailwind CSS](#) · [Lucide React](#)

- Developed high-impact UI sections (Hero, Intro, Tools Grid) for a premium HR Community platform with interactive storytelling elements.
- Ensured pixel-perfect responsiveness and functional navigation across all breakpoints.

GrowatiApp – AI Creator Platform | [Next.js](#) · [TypeScript](#) · [Tailwind CSS](#) · [GSAP](#) · [Radix UI](#) · [TanStack Query](#)

- Built 14+ internal pages for a comprehensive AI-driven creator platform, including free tools, comparison matrices, and legal sections.
- Designed a modular footer system and optimized routing using Next.js App Router for smooth, high-performance navigation.
- Structured a scalable frontend architecture capable of handling data-intensive workflows efficiently.

WAE Web – Core Platform & Workshop Hub | *Next.js 14 · Supabase · Firebase · GSAP · Anime.js · Framer Motion · Tailwind CSS*

- Executed a full UI/UX overhaul of the WAE Web platform with high-performance data integration and modern design aesthetics.
- Engineered a dynamic workshop event system fetching real-time data from Supabase, enabling automated and up-to-date event listings.

GrowthPartner – Career Mentorship Platform | *Next.js · TypeScript · Tailwind CSS · Framer Motion · GSAP · Radix UI*

- Developed a premium career-mentorship landing page with Editorial UI/UX, optimized CTA logic, and full cross-device responsiveness.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon · **CGPA: 8.02**

Full Stack Web Development Training · WAE Academy

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML/CSS

Frameworks: React JS, Next.js, Express.js, Tailwind CSS, Shadcn UI, Chakra UI, WordPress

Backend & Databases: Node.js, MongoDB, Firebase, Supabase, Socket.IO

Tools & Platforms: Git, GitHub, VS Code, Postman, Windsurf, Antigravity, ChatGPT, Claude

Soft Skills: Teamwork & Collaboration, Adaptability, Time Management, Creative Problem-Solving
